

IDEACLUM

Step into the future with Ideaclum, an exclusive platform for individuals to present their innovative ideas in science and engineering. Whether it's a pioneering concept, a creative solution, or an engineering breakthrough, this is your chance to share your vision with the world. With 10 minutes to captivate the audience, make your mark as a true innovator in technology and science! Rules and Regulations.

Eligibility: Open to all registered symposium participants. Individual participation only.

Presentation Duration: 10 minutes (strictly enforced).

Content: Present innovative ideas related to science and engineering, including novel technologies, inventions, or solutions.

Language: English only.

Evaluation:

- Innovation and Originality: 40%
- Practicality and Feasibility: 30%
- Presentation Quality and Communication: 20%
- Technical Depth and Understanding: 10%

Guidelines:

- PowerPoint slides are allowed and encouraged.
- Presentations must be prepared and ready on time.
